

STOP THE CELL-OFF! RALLY

**10.00am Friday 1st May
377 Sussex Street, Sydney**

Labor Party policy states: *"Labor opposes the private contract management of prisons."*

But Corrective Services Minister John Robertson is trying to get ALP HQ to say that selling off Cessnock and Parklea prisons to international companies to run does not breach this policy.

If this happens the Party would be manipulating policy to say that black is white and up is down.

Prisons and prison transport should not be run for profit. Private prisons will hurt local communities - jobs will be lost and safety will be compromised.

The ALP Administrative Committee meets on May Day to vote on the re-interpretation of policy.

**Come along and make some noise and hold Labor
to its policy of opposing private prisons!**
